

Discover the power of green food. Simply & directly from Farm to Family.

We all know that we should eat more vegetables and fruits, we all know the power of green food.

And yet we do not manage to integrate these vital ingredients into our daily diet. Buying untreated vegetables and fruits is laborious and expensive, preparing them is time-consuming and tedious, so we automatically turn to snacks or canned food instead of fresh vegetables and fruits.

There is a solution: 200 plants, fruits and vegetables richest in vital nutrients, grown under the purest conditions and gently dried and crushed. Thus durable and easy to take daily as a shake.
